SECTION II

PROGRAM, SYSTEM OR EQUIPMENT CODES

(Item B12C)

Purpose

The DD Form 350 codes in this section have been developed to facilitate an analysis of DoD procurement by Major Defense Acquisition Program,* system, or equipment item. However, if an end item or a component identifiable to an end item cannot be identified by a specific code, a request for a code, attached with the applicable DD Form 350, should be addressed to the appropriate organization specified in DoD FAR Supplement 253.204-70. Submission of the DD Form 350 will not be delayed pending resolution of the inquiry.

If a program, system, or equipment code is not applicable to a DD Form 350 transaction or bears a security classification prohibiting unclassified disclosure of the code title in combination with other DD Form 350 items, the code "000" (three zeros) shall be assigned.

Description and Use of Program Codes

Ballistic Missile Defense Organization (BMDO)

If a contracting action is funded by the BMDO, enter code CAA - Ballistic Missile Defense System.

Environmental Cleanup Programs

Specific codes have been established to identify environmental cleanup programs in DD Form 350 transactions. These codes are to be used for all transactions involving environmental acquisitions. When a procurement is for supplies or services in support of environmental cleanup programs, the code for the program with the largest dollar value will be used. Where both a system code and a program code apply, use the program code. Acquisitions otherwise supporting environmental cleanup programs which are not allocable to a single program (i.e. DERP, BRAC, or Superfund) shall be coded ZOP, Other Environmental Programs.

<u>Code</u>	<u>Environmental Cleanup Program</u>
ZDE	Defense Environmental and Restoration Program (DERP)
ZBC	Base Realignment and Closure (BRAC) Environmental Activities
ZSE	Environmental Protection Agency Superfund
ZOP	Other Environmental Programs

* The Major Defense Acquisition Programs are defined by the Criteria in Section 2430, Title 10 of the U.S. Code.

Description and Use of System or Equipment Codes

The code for Item B12C consists of three alphabetical positions. The first position identifies one of the following major categories of equipment:

A Aircraft	F Ammunition
B Aircraft Engines	G Electronics
C Missiles & Rockets	H Other Equipment
D Vehicles	S Ships
E Weapons	

The second position identifies a subdivision of the major category, e.g., trainer aircraft, while the third position identifies the specific item, e.g., an F-111.

Normally, each system or equipment code includes all subsystems, components, repairs and repair parts, modifications, and related supplies and services (other than RDT&E and construction) which are procured specifically for the system or equipment. Exceptions to this rule are those instances where a specific equipment item or a major component has been assigned a separate code, e.g., J-52 Turbojet Aircraft Engines.

When a procurement is for components, parts, or services covering more than one system or equipment and 75 percent or more of the dollar amount is allocable to a single system or equipment, the code for that system or equipment shall be assigned. Otherwise, multi-system procurement shall not be assigned a specific code.

Each department should use only that part of Section II designated for its use, e.g., Part A for Army, Part B for Navy, and Part C for Air Force. The arrangement of systems or equipment by major category is as follows:

1. Aircraft are arranged by design number within each basic mission symbol, e.g., A-4, A-5, A-6, and F-4.
2. Aircraft engines are arranged by design number within type of engine.
3. Missiles and rockets are arranged by design number.
4. Air Force electronics and communications items are arranged numerically by system number.
5. All other categories are arranged alphabetically by key word or words and by caliber size.

If an aircraft, missile, or rocket reported on DD Form 350 does not have a mission symbol or letter prefix listed in this manual, but does have a design number that is listed, the code applicable to that design number should be assigned. For example, an RB-52 aircraft would be assigned the code for a B-52. In addition, the series symbol for an item is not used, e.g., F-111 is used rather than F-111A or F-111B.

SECTION III **DOD CLAIMANT PROGRAM CODE** **(Item B12B)**

A claimant program number designates a grouping of supplies, construction, or other services. One of the following code numbers should be entered in Item B12B of each DD Form 350 in accordance with definitions provided in this section.

<u>Code</u>	<u>Program Title</u>
A1A	Airframes and Related Assemblies and Spares
A1B	Aircraft Engines and Related Spares and Spare Parts
A1C	Other Aircraft Equipment and Supplies Not Included in A1A and A1B
A20	Missile and Space Systems
A30	Ships
A4A	Combat Vehicles
A4B	Non-Combat Vehicles
A50	Weapons
A60	Ammunition
A70	Electronics and Communication Equipment
A8A	Petroleum
A8B	Other Fuels and Lubricants
A8C	Separately Procured Containers and Handling Equipment
A90	Textiles, Clothing and Equipage
B10	Building Supplies
B20	Subsistence
B30	Transportation Equipment (Railway)
B90	Production Equipment
C20	Construction
C9A	Construction Equipment
C9B	Medical and Dental Supplies and Equipment
C9C	Photographic Equipment and Supplies
C9D	Materials Handling Equipment
C9E	All Others Not Identifiable to Any Other Procurement Program
S10	Services

When planned use is known at the time of purchase, a procurement program should be selected on the basis of the use of the supplies or work purchased. This includes all items pertaining to the following:

1. Crating, packaging materials, and dunnage.
2. Conversion and maintenance and repair, including:
 - a. Materials
 - b. Services (performed by contractors)
 - c. Operating supplies
 - d. Components and repair parts
3. Related training equipment and devices (including technical manuals and publications).
4. Related research and development and preproduction materials and equipment. An exception, however, is the construction of research and development facilities, which are included in program C20.

When planned use is not known, items pertaining to the supplies and services listed above shall be identified with program C9E or S10, as appropriate.

A-1 AIRCRAFT PROGRAM

This program consists of three subprograms: (a) Airframes and Related Assemblies and Spares; (b) Aircraft Engines and Related Spares and Spare Parts; and (c) Other Aircraft Equipment and Supplies Not Included in Subprograms (a) and (b).

(a) Airframes and Related Assemblies and Spares.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Complete aircraft (procured as such, i.e.--helicopters, excluding GFE).	GFE tires and tubes.	A-1c
Airframe assemblies and spares such as tail assemblies, wing assemblies, landing gears, etc.	General purpose production equipment.	B-9
Special jigs, dies and fixtures to be used only in the fabrication of a specific airframe model (including variations thereof).	Production facilities.	C-2
Maintenance tools peculiar to the aircraft.		

(b) Aircraft Engines and Related Spares and Spare Parts.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Aircraft engines and parts.	Aircraft engines incorporated in aircraft procured as complete aircraft.	A-1a
Assist takeoff other than droppable units.	Assist takeoff (ATO), droppable units only.	A-6
Aircraft jet engines and parts used, without major modification, on guided missiles.	General purpose production equipment.	B-9
Special jugs, dies and fixtures to be used only in the fabrication of a specific model of aircraft engine, including inspection gauges.	Production facilities.	C-2
Maintenance tools peculiar to the engine.		

(c) Other Aircraft Equipment and Supplies Not Included in Subprograms (a) and (b).

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Aircraft instruments and parts (except electronic equipment for communication, fire control and	GFE electronics and communications equipment.	A-7
	GFE weapons.	A-5

radar). Electrical equipment,

GFE fire control, bomb

A-5 or A-7
Program in Which
Exclusions
are Included

Includes

such as generators, inverters
starters, alternators, etc.
Aircraft propellers and hubs.
Mobile training units.
Flight simulators.
Ground handling equipment peculiar
to a specific model of aircraft.
Other accessories and parts readily
identifiable for aircraft use,
such as gun turrets, bomb racks
and releases, rocket launchers,
fuel tanks, droppable aircraft
tanks, tires and tubes, control
wires, servo and other control
mechanisms, etc.

Excludes

sights and related elec-
tromechanical devices.
Aircraft weapons.
Photographic equipment.
Airborne accessories not an
operational part of the
aircraft, such as life rafts,
oxygen masks, parachutes,
fire extinguishers, etc.
Organizational equipment,
such as general ground or
deck handling equipment,
ships, hangar and air-
field equipment.

A-5
C-9
A-9 or C-9

B-9 or C-9

A-2 MISSILES & SPACE SYSTEMS PROGRAM

Includes

Missiles and space systems.
All missile and space system parts
and related equipment procured
from prime contractors except
items excluded.
CFE electronic equipment for missiles
and space systems.
Booster cases for missiles.
Ground handling and launching equip-
ment peculiar to a specific model
of missile or space system.
Target drones.
Special jigs, dies and fixtures
which can be used only in producing
specific types of missiles and
space systems, including inspection
gauges.

Excludes

GFE aircraft jet engines
used, without major mod-
ifications, on missiles or
space systems.
Fuels.
GFE electronic equipment.

Program in Which
Exclusions
are Included

A-1b

A-6 or A-8
A-7

A-3 SHIPS PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Construction of vessels of all types.	Guns, rocket launchers, torpedo tubes, depth charge projectors and other weapons.	A-5
Total cost of services, civilian labor, and ship parts used in conversion, repair, overhaul and modernization, whether done by private contractors or in government shipyards.	Fire control equipment.	A-5
Ship parts (except those excluded).	GFE electronic equipment, e.g., communications, fire control, radar ect.	A-7
Ship armor not procured with, or as a part of, weapons.	Ship equipage and housekeeping supplies, such as brooms, soap, paint, grease, light bulbs, mess and galley utensils, cleaning rags; office supplies; clothing and other personal items; recreation equipment and supplies; and similar types of items which are not usually produced as ship parts.	Generally A-9 or C-9
Aircraft catapults and arresting gear.	Pontoons (including propelling units).	B-1
Assault boats.	Fabric or rubber life rafts.	A-9
Floating cranes, floating drydocks, and bridge erection boats.	GFE production equipment.	B-9
Production equipment procured as a part of and mounted on floating equipment.		
Tracked amphibious vehicles, such as LVT's.		
Shipbourne deperming and degaussing equipment.		
Special jigs, dies and fixtures, which can be used only in specific shipbuilding operations, including inspection gauges.		

A-4 TANK/AUTOMOTIVE PROGRAM

This program consists of two subprograms: (a) Combat Vehicles & (b) Non-combat Vehicles.

(a) Combat Vehicles.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Tanks.	Weapons.	A-5
Self-propelled gun motor carriages.	Fire control equipment.	A-5
Other combat vehicles.	GFE electronic equipment, e.g., communication, fire control, etc.	A-7
Combat vehicle parts.	Tracked amphibious vehicles, such as LVT's.	A-3
Modification, whether done in private or in government production facilities.	Production facilities.	C-2
Special jigs, dies and fixtures which can be used only in producing a specific combat vehicle model.	General purpose production equipment.	B-9
